EQUIPMENT**

PICKETT

ALL-METAL SLIDE RULES

Presented on these pages are the Pickett Slide Rules designed for every course of study and field of work; the most complete line of slide rules anywhere in the world.

Some are the most powerful and versatile slide rules ever developed. Others are less complex. But every Pickett All-Metal Slide Rule is the quality product of American ingenuity and manufacturing skill.

THESE ARE THE REASONS FOR PICKETT PREFERENCE

- 1) ALL-METAL CONSTRUCTION** Pickett Slide Rules are dimensionally stable. Regardless of heat or cold, dry or damp, they never warp or stick. Smooth operation is assured in all climatic conditions.
- 2) EYE-SAVER "5600" YELLOW COLOR** The exclusive Pickett yellow-green finish makes it easy to read scales, even in bright sunlight. Eye-fatigue is sharply reduced and visual accuracy improves. White finish is also available on most models.
- 3) MICRO-DIVIDED SCALES** Precision to ± 2 microns (.000157 inch) makes Pickett All-Metal Slide Rules "The World's Most Accurate."
- 4) FUNCTIONAL SCALE GROUPING** Scales are positioned so as to provide quick solutions to problems through a minimum of steps or operations. Trig scales are always on the slide; extended Log Log scales are on one side; extended root scales $\sqrt{\quad}$ and $\sqrt[3]{\quad}$ are on upper bar for most efficient use.
- 5) SYNCHRO-SCALE DESIGN** Mated scales are "back-to-back" so the eyes more easily find on the correct scale. This convenient arrangement aids quick reference and easy reading.
- 6) EZE-SLIDER TENSION SPRINGS** Spring tension is maintained at both ends to assure smooth operation in any climate throughout the length of the slide rule, with minimum adjustment.
- 7) NYLON CURSORS** End-bearing cursors always function smoothly. The special Tyrl plastic window has a super-sharp hairline, is extremely durable and provides clear, distortion-free reading.
- 8) TOP GRAIN LEATHER CASES** The 10-inch slide rule cases have a formed plastic protective liner; the 6-inch slide rule cases have a leather jacketed spring steel pocket clip and E-Z-Out pull tab. All of these are Pickett innovations that enhance the value of treated, select leathers.

LIFETIME GUARANTEE

The Pickett Slide Rule Guarantee is firm and unequivocal. It is valid for a lifetime of satisfying use by every Pickett All-Metal Slide Rule registered owner.

AUTHORITATIVE SELF-INSTRUCTION MANUALS All Pickett Slide Rules come with manuals that are clear, complete and mathematically sound. They include many sample problems and are generously illustrated. They are the work of Dr. Maurice L. Hartung, Professor of the Teaching of Mathematics, The University of Chicago.

**VECTOR TYPE LOG LOG DUAL BASE
EXPONENTIAL SPEED RULE**

10" Scale Sections, 2" Body

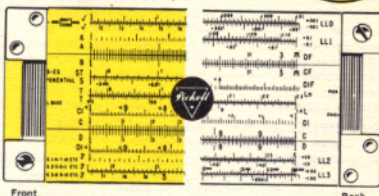

Recommended
for Upper Level
COLLEGE and Upper
HIGH SCHOOL
Students

For advanced Mathematics, Science, Electronics and Engineering. This superb computing instrument is undoubtedly the world's most powerful slide rule. There are 34 scale sections functionally grouped for speed and accuracy that include 80-inch LL scales, e^{-23} to e^{23} and 10^{-10} to 10^{10} , plus L and the new Ln (Exponential) scale. To minimize steps, C, D, and CI are on both sides, TT, ST, S, Th and Sh are all on the slide, and the Log Log, DF/M, L and Ln all on one side. In addition to the extended Log Log, there are 30-inch Cube/Cube Root, 20-inch Square/Square Root and 20-inch T scales. Red and black numerals color code direction and relationships.

Model N4ES (Eye-Saver Yellow); or N4T (White)
with Leather Case and Instruction Manuals \$25.50

**POWERLOG DUAL BASE
EXPONENTIAL SPEED RULE**

10" Scale Sections, 2" Body

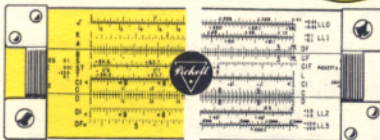

Recommended
for COLLEGE
and Upper
HIGH SCHOOL
Students

For Mathematics, Science and Engineering. There are 32 scale sections on this model functionally grouped for convenience, speed and accuracy. The 80-inch Log Log scales have a range from .00005 to .999 and 1.001 to 22,000. The Ln scale puts exponents and logarithms to base e directly into combined operations. C, D, and CI are on both sides, TT, ST and S are all on the slide, and LL, L and Ln all on one side. In addition to the extended Log Log, there are 30-inch Cube/Cube Root, 20-inch Square/Square Root and 20-inch T scales. Red and black numerals color code direction and relationships.

Model N3ES (Eye-Saver Yellow); or N3T (White)
with Leather Case and Instruction Manuals \$23.50

DUAL BASE LOG LOG SPEED RULE

10" Scale Sections, 1 1/4" Body

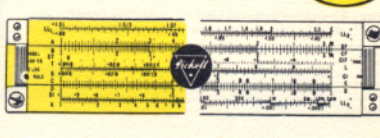

Recommended
for COLLEGE
and Upper
HIGH SCHOOL
Students

For Mathematics, Science and Engineering. Model N803 has 28 scales functionally grouped for accuracy and convenience that include Log Log scales to Base e and Base 10. The 80-inch Log Log range is .00005 to .999 and 1.001 to 22,000. C, D, and CI are on both sides, all trig scales on the slide, Log Log scales all on one side. The Square/Square Root scale is double length. Red and black numerals color code direction and relationships. Model N800 is a simplified 22 scale Base 10 version of Model N803, accepted as standard in colleges, high schools and industry. This Model is duplicated in the 6-inch pocket size N600.

Model N803ES (Eye-Saver Yellow); or N803T (White)
with Leather Case and Instruction Manual \$21.50
Model N800ES (Eye-Saver Yellow); or N800T (White)
with Leather Case and Instruction Manual \$18.50

LOG LOG POCKET SIZE SPEED RULE

5" Scale Sections, 1" Body

Recommended
as a Field
Companion for
Log Log Rule Users

For Mathematics, Science and Engineering. This is a complete Log Log rule in convenient-to-carry, pocket-size. Its 22 scales include 30-inch Log Log, C-D on both side, plus CI and DI. Functional grouping, with all trig scales on the slide and back-to-back synchro-scale arrangement, aids speed and accuracy. Red and black numerals color code direction and relationships. This complete duplicate of Model N800 is extremely popular with students and men "on the move."

Model N600ES (Eye-Saver Yellow); or N600T (White)
with Leather Case and Instruction Manual \$10.00

TRIG AND TRIG / EXPONENTIAL MODELS

STANDARD TRIG / EXPONENTIAL RULE

10" Scale Sections, 1 1/4" Body

Front **Back**
For Schools, Industry and Business. Essentially a superb trig slide rule, with the addition of the Pickett exclusive Ln scale, this model becomes virtually equivalent to a Base e Log Log rule of unlimited range. It makes possible combined operations with powers of e ; and give logarithms to base e and results in combined operations. Gives three or four place accuracy and does for base e everything the L scale does for Base 10. Red and black numerals color code direction and relationships. It is recommended as a "lifetime" purchase for talented students. Model N1006 is a pocket-size slide rule of the same type.

Model N1011ES (Eye-Saver Yellow); or N1011T (White)
with Leather Case and Instruction Manuals \$13.50

POCKET SIZE TRIG / EXPONENTIAL RULE

5" Scale Sections, 1" Body

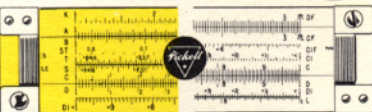

Front **Back**
For Schools, Industry and Business. With "men on the move" this convenient-to-carry pocket size slide rule is very popular. It is a superb trig rule with the exclusive Pickett Ln scale added and thus is virtually equivalent to a Base e Log Log rule. It makes possible combined operations with powers of e , gives logarithms to base e of results of combined operations, gives results to three or four places and does for base e everything the L scale does for Base 10. This model has C and D on both sides, plus CI and DI. Red and black numerals color code direction and relationships.

Model N1006ES (Eye-Saver Yellow); or N1006T (White)
with Leather Pocket-Clip Case and Instruction Manuals, \$9.00

STANDARD TRIG RULE

10" Scale Sections, 1 1/4" Body

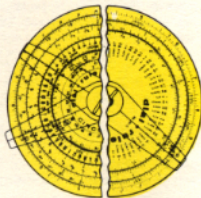

Front **Back**
For Schools, Industry and Business. This is probably the world's most popular trigonometric slide rule. It is standard for schools. There are 17 scales with C, D, and DI on both sides, plus CI. All trig scales are on the slide. Red and black numerals color code direction and relationships. This is recommended as a "lifetime" purchase for students, businessmen and shopworkers who do not require log log scales.

Model N1010ES (Eye-Saver Yellow); or N1010T (White)
with Leather Case and Instruction Manual \$12.00

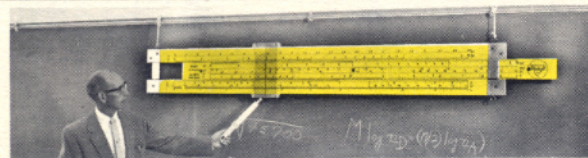

DIAL RULE CIRCULAR

SLIDE RULE 4 1/4" Diam.

For Shop, Desk and Technical School Courses. This quality instrument is complete with 16 basic scales for the solution of problems in multiplication, division, logs, trig, roots and the addition and subtraction of fractions. Drill and thread relationships, metric conversions, and a table of decimal equivalents are included for convenience. This type has long been a standard in schools and industry.

Model N101CR (Eye-Saver Yellow) \$3.50
with Texon Case and Instruction Manual

DEMONSTRATOR SLIDE RULES. Constructed especially for classroom use, Pickett Demonstrator Slide Rules are made of treated plywood and finished in Eye-Saver Yellow for excellent visibility characteristics and distant reading. They can be suspended from wall or ceiling and are lightweight enough to be easily handled by the teacher for instruction at a desk. Metal end-plates are adjustable. Special plastic inserts provide easy slide action. The window is a hard-faced plastic with a clearly defined hairline. The Demonstrators duplicate both sides of the Guaranteed Pickett Slide Rules used by schools and colleges.

Three models are available in both the 4-ft. and 7-ft. lengths (N4, N803, and N1010 with Ln scale added). A 4-ft. Demonstrator (\$15 value) can be obtained free of cost with the purchase of 24 or more Pickett All-Metal Slide Rules. A 7-ft. Demonstrator (\$25 value) can be obtained free of cost with the purchase of 24 or more Pickett Models, N1010, N1011, any Log Log and All-Metal Pocket Size Slide Rules. (Offer subject to change)

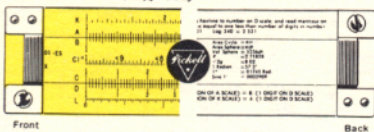

SLIDE RULE SELF-SERVICE DISPLAY. Shows, lists users, and describes the six Pickett "best sellers" plus 6-inch and 10-inch slide rule leather cases. A quality fixture, only 18" x 19" with adjustable easel. See and compare all of the most popular models conveniently displayed at your dealer's.

SIMPLEX RULE

10" Scale Sections, 1 1/4" Body

Front

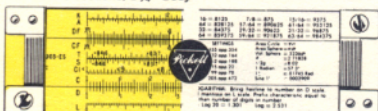

Back

This model is useful as a learning tool and for simple problems in proportion, percentage, multiplication and division. However, its simplicity does not reflect less quality. This is an all-metal slide rule made to the same high standards of Pickett accuracy and permanency. The 7 basic scales are all on the front face. On the back are definitions, instructions, and a table of equivalent settings for handy reference.

Model 901ES (Eye-Saver Yellow); or N901T (White)
with Texon Sheath Type Case and Instruction Manual, \$5.50
with Leather Case, \$7.50

TRIG and CONVERSION RULE

10" Scale Sections, 1 1/4" Body

Front

Back

This is a multi-purpose slide rule designed for accuracy and convenience in the solution of everyday problems in trig, basic computation and conversion. On its face are 10 standard and trig slide rule scales. On the back are positioned 60 Conversion Factors commonly occurring in school and technical work (an exclusive Pickett feature) plus a table of equivalent settings.

Model N903ES (Eye-Saver Yellow); or N903T (White)
with Texon Sheath Type Case and Instruction Manual, \$7.50
with Leather Case, \$9.50

POCKET SIZE BUSINESS and MERCHANT'S RULE

5" Scale Sections, 1" Body

Front

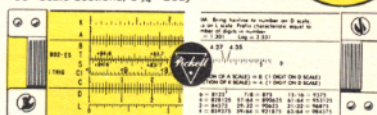

Back

This slide rule is a favorite with merchandisers, accountants, salespeople, bankers, realtors, etc., as it furnishes special scales that give quick and accurate answers to everyday problems encountered in business. The 7 basic scales on the front are used to solve the ordinary problems of multiplication, division, proportion, Square/Square Root, Cube/Cube Root and logarithms. On the back are 7 scales for problems in simple interest and discount, payrolls, business ratios, both foreign and domestic weights and measures, conversions, markup analysis, and series discounts.

Model N400ES (Eye-Saver Yellow); or N400T (White)
with Leather Pocket Clip Case and Instruction Manual, \$9.00

SIMPLEX TRIG RULE

10" Scale Sections, 1 1/4" Body

Front

Back

For Senior and Junior High Schools. This is a widely used complete and basic slide rule for the solution of problems involving trigonometry as well as those in multiplication, division, proportion, etc. The 8 basic scales are on the face for simplified operation. On the back are instructions for multiplication, division, finding logarithms and solving problems in trig plus conversion factors and equivalents. This is an all-metal rule practical for schools and industry made to the high standards of Pickett quality and accuracy.

Model N902ES (Eye-Saver Yellow); or N902T (White)
with Texon Sheath Type Case and Instruction Manual, \$5.50
with Leather Case, \$7.50

TRIG and EXPONENTIAL NOTATION RULE

10" Scale Sections, 1 1/4" Body

Front

Back

This "decimal keeper" slide rule is a Pickett origination for education. It enables students to master the idea of exponents in terms of magnitude and the basics of decimal point locating. On the face are 9 basic and trig scales. On the back are 9 related powers-of-ten scales which graphically demonstrate the principles of exponents and "decimal keeping." Special instructions by Dr. Maurice L. Hartung, Professor of the Teaching of Mathematics, The University of Chicago.

Model N904ES (Eye-Saver Yellow); or N904T (White)
with Texon Sheath Type Case and Instruction Manual, \$7.50
with Leather Case, \$9.50

POCKET SIZE TRIG RULE

5" Scale Sections, 1" Body

Front

Back

This is a convenient-to-carry pocket size trig rule for the solution of everyday problems. It has the same superb quality and accuracy that Pickett all-metal slide rules are famed for. The 7 basic scales are on the face, with the three trig scales on the back of the slider. This model is widely used by students, businessmen and shopworkers who prefer a simplified and handy slide rule.

Model N200ES (Eye-Saver Yellow); or N200T (White)
with Leather Pocket Clip Case and Instruction Manual, \$8.00

LARGE TYPE INDICATES MAJORITY PREFERENCE IN VARIOUS FIELDS OF WORK AND STUDY COURSES

WALL DEMONSTRATOR SLIDE RULES:

For Colleges, Models N4 or N803; For Secondary Schools, Models N803 or N1010

*Used by and recommended for most all Secondary School teaching

*These quality products are designed,
developed and manufactured to serve the
economy market by the world's leading
producer of all-metal slide rules.*

POCKET SIZE TRIG RULE 5" Scale Sections, 1" Body

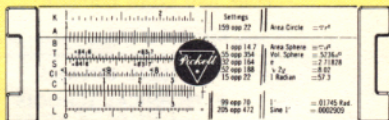

Front

Back

Seven basic scales are engraved on the face and trig scales on the back of this model. Students and professional men using slide rules for trigonometric computations find it ideal as an economical addition to their desk instrument. Completely adjustable cursor assembly and metal end plates. Pickett quality construction throughout.

Model 62 (White);
(with Top Grain Leather Case and Instruction Manual) . \$4.50

TRIG TRAINER RULE 10" Scale Sections, 1½" Body

Front

This is a sturdy slide rule with 9 basic scales engraved into the white finish. The single piece cursor is unbreakable and cannot slip off the rule. Machined groovings insure smooth operation. A useful rule for beginning students and workers who do not need all-metal precision and permanence.

Model 120 (White);
(with Sheath Type Case and Instruction Manual) \$1.95

POCKET SIZE TRAINER 5" Scale Sections, 1" Body

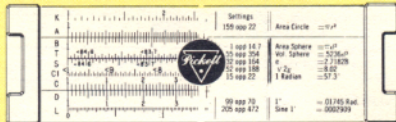

Front

Seven basic scales are engraved on the face of this rule, used extensively for its convenience by both students and professional men. Pickett quality construction with unbreakable cursor, end plates, machined groovings and accurate graduations. This is a popular model as a "second" rule which supplements the 10" Pickett desk-size instrument.

Model 61 (White);
(with Pocket Case and Instruction Manual) \$1.95

TRIG & CONVERSION RULE 10" Scale Sections, 1½" Body

Front

Back

The face of this rule is identical to Model 120. On the back side are engraved frequently used Conversion Factors. Pickett Plastic Rules are solid-laminated for durability. Scale graduations are accurate and uniform. End plates hold the rule in permanent alignment and will not allow the cursor to slip off the end. This model is practical for all those who need basic and trig scales plus conversion factors for everyday lab and shop use.

Model 121 (white);
(with Sheath Type Case and Instruction Manual) \$2.95

is featured with Model 62. Others have durable Sheath Type Protective Cases.

CONTRIBUTORS TO SCIENTIFIC AND EDUCATIONAL PROGRESS

The tools with which a craftsman works are important to his productivity. Given time, a scientist *could* work out his answers by arithmetic; the draftsman *could* draw a straight line freehand, and the architect *could* erect a right angle with two rules. But in today's world both accuracy and speed are essential. With modern Pickett Slide Rules answers to complex prob-

lems are derived quickly. With modern Pickett Templates and Lettering Guides the visualization of these results is recorded with maximum convenience and accuracy. The Pickett product policy is unequivocal: Perfection and nothing less. Because of this, the Pickett name and trademark are symbolic of quality. The Pickett Guarantee is assurance, in writing, of lasting satisfaction.

SUPER-SHARP RESULTS. These **PICKETT** drawing aids resolve the most tedious and time-consuming of the drafting operation. Instead of rendering in painstaking detail, craftsmen can easily produce well-defined shapes, with absolute accuracy that match the "color" of other lines, in a fraction of the time ordinarily required.

SUPER-FAST DETAILING. The value of **PICKETT** drawing aids is field proven. Draftsmen, on the average, spend approximately 10% of their time rendering shapes available on standard **PICKETT** Templates. Where draftsmen are equipped with **PICKETT** Templates, these operations have been reduced to 1% of total drafting time. Impressive savings!

In modern technology, where time is the most precious of all commodities, **PICKETT** Templates offer precise results, often with but a single stroke of pen or pencil, and no time consuming re-doing! **PICKETT** Lettering Guides provide the same economies and professional results.

PRECISION QUALITY. Material used for **PICKETT** Templates and Lettering Guides is chosen from select stocks, carefully checked for unvarying thickness and fully seasoned prior to manufacture. Apertures are produced to engraving machine tolerances, smooth and friction-free. Delineations are accurate and clear.

PICKETT drawing aids are of soft-green color with matte finish to reduce glare and relieve eye-strain, for maximum visual accuracy. This color and finish are combined so that the transparency of the drawing aid remains excellent.

COMPLETE SELECTION. **PICKETT** Templates are designed to satisfy the needs of all standard symbol drafting. Every student who aspires to professionalism will want to master their use. Every professional, dedicated to efficient service, will have at hand a complete set for his field of work.

SPECIAL MANUFACTURE. **PICKETT** Templates are frequently made to special designs. Please send a scale drawing, indicating areas to be cut out and the printed markings desired. Quotations will be serviced promptly.

POCKET SIZE GENERAL USE

NO. 1085

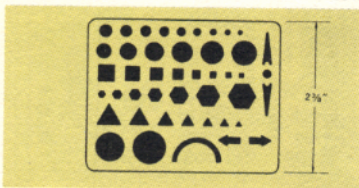

40 openings especially useful in field operations. Slips into your pocket. Green tint.

3 1/2" x 5" x .030" price \$.85

GENERAL USE JR.

NO. 1043

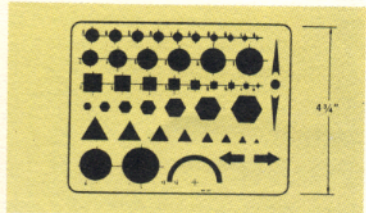

A pocket size model of No. 1033, an indispensable template for "men on the move."

2 3/4" x 3" x .020" price \$.75

GENERAL USE

NO. 1033

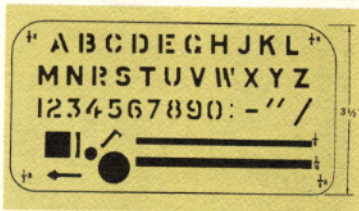

Same openings as No. 1053, without the under cut symbols. Made for those who work the pencil technique exclusively. Matte finish green plastic.

4 3/4" x 6" x .030" price \$1.00

ALPHABET

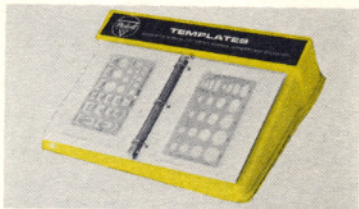

NO. 0300

Block letters 1/8" high for drawing zone blocks, finish marks and dash number circles. Openings beveled for easy access. Green tint.

3 1/2" x 6 1/2" x .060" price \$1.25

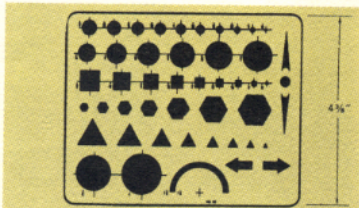

SELF-SERVICE GUIDELINE TEMPLATE DISPLAYER

is organized to help each customer see and select all of the Templates used in his course of study or field of work. TD-61

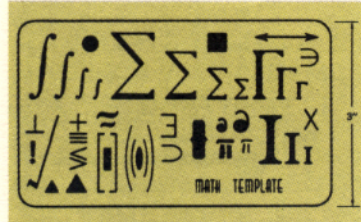

GENERAL USE, NON SMEAR

NO. 1053

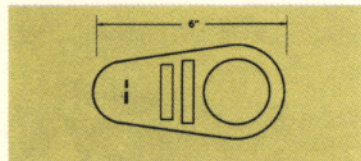

48 useful openings with a .020" undercut for fast, clean, non-smear work. Made for use with the ink type drawing pen, or with pencil.

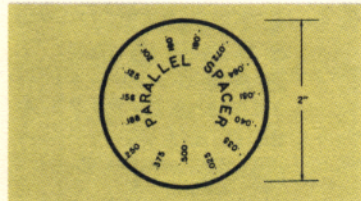

4 3/4" x 6" x .045" price \$1.00

MATHEMATICS
NO. 1209

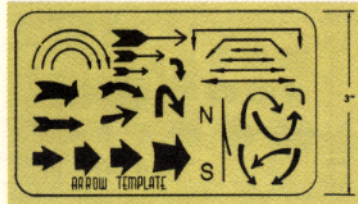

Most math symbols used in mathematical and chemical formulae.
 3" x 5" x .020" price \$1.50

INK RISER
NO. 1095

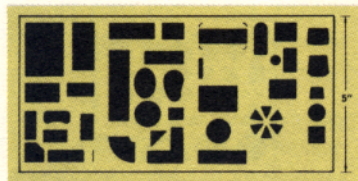

Use the Ink Riser as a spacer between your paper and template, thus raising the template surface so the ink will not smear. A real aid to drafting.
 3" x 6" x .030" price \$.50

PARALLEL SPACER
NO. 1096

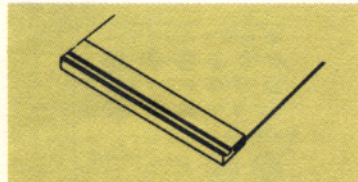

An inexpensive spacer for drawing straight lines at a desired distance to the edge of a T-square or straight edge. Parallel curved lines can also be drawn when used with an irregular curve or sweep.
 2" dia. x .030" price \$.50

ARROWS
NO. 1208

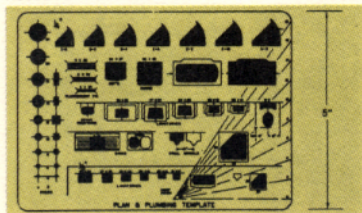

Every type of arrow for directional turn, process flow and dimensional indication. Packaged in clear envelope.
 3" x 5" x .020" price \$1.50

HOME FURNISHINGS
NO. 1155

Useful for interior designers, furniture store salesmen and practically every family. Matte finish, green tint, with 1/4" grid lines.
 10" x 5" x .030" price \$3.00

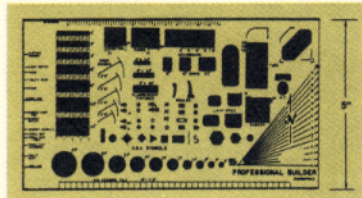

EDGE STRIPS
NO. 1090

For templates or letter guides. Easily affixed to edge of template to prevent slipping under raised T-squares. For best results when inking, use strips on both sides.
 For .020 to .030 templates.
 10" length price \$1.20 doz.
 Also available in longer lengths.

HOUSE PLAN & PLUMBING
NO. 1150

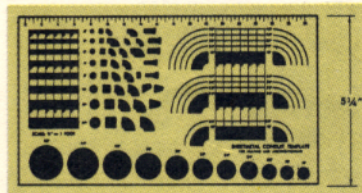

Symbols used in every house plan. Accurate spacing and roof pitch gauges. Green tint. Scaled $\frac{1}{4}"=1'$.

5" x 7" x .030" price \$1.50

RESIDENTIAL BUILDING
NO. 1151

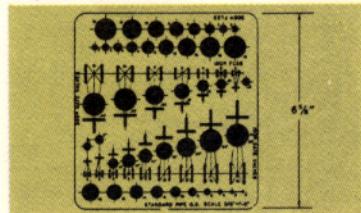

Residential Building symbols accurately made to scale for professional use. Two color printing for fast identifying and close registration. Scale $\frac{1}{4}"=1'-0"$.

5" x 9" x .030" price \$2.50

AIR CONDITIONING & HEATING DUCT
NO. 1160

Covers all sizes between 4" and 8" cross sections, either round or square. Designed for sheetmetal layout.

9 3/4" x 5 1/4" x .030" price \$4.00

PIPE, VALVES AND FLANGES
NO. 1159

150-lb. and 300-lb. gate valves and flanges. Standard pipe O.D. at $\frac{3}{8}"$ scale

6 1/4" x 6 1/4" x .030" price \$3.50

RESIDENTIAL BUILDING
NO. 1152

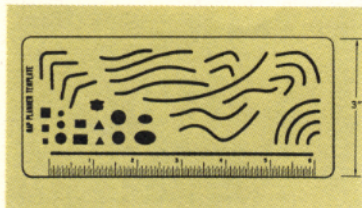

Residential Building template No. 1152 similar to No. 1151 except $\frac{1}{8}"=1'$ scale.

5" x 9" x .030" price \$2.50

STRUCTURAL STEEL SHAPES
NO. 1161

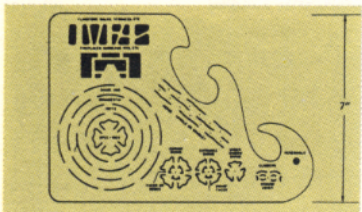

1" scale. Wide flange, equal and unequal angles steel details. Green tint.

5" x 9" x .030" price \$3.25 18

PATHS, ROADS & STREETS
NO. 1166

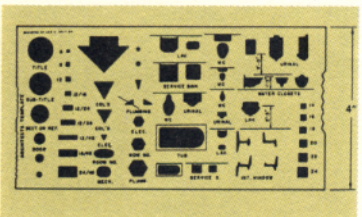

Useful for making highways, terrain contours, landscaping plats. Contains many standard traffic symbols. Green tint.

7" x 3" x .030" price \$1.90

LANDSCAPE
NO. 1178

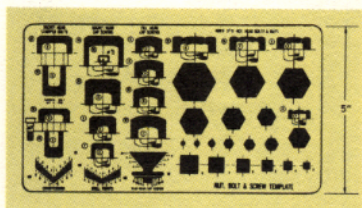

Contours, trees, shrubs, walks and fixtures drawn neatly in seconds with this useful template. Green tint.

7" x 10" x .030" price \$3.95

INDUSTRIAL ARCHITECTURE
NO. 1190

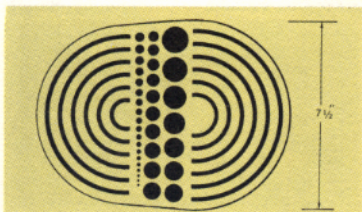

Every industrial architect, engineer and designer will find this instrument a necessity. Green tint. Packaged in clear plastic.

4" x 7 1/4" x .020" price \$2.50

NUT, BOLT AND SCREW
NO. 1175

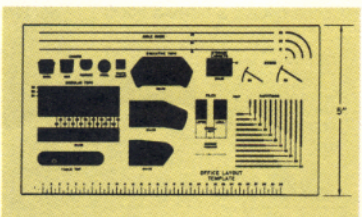

For drawing socket head stripper bolts, cap screws, American Std., Hex. head bolts and nuts, counter sink and drill points.

5" x 9" x .030" price \$2.25

RADII MASTER
NO. 1202

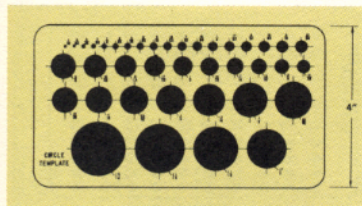

62 sizes for use with pen or pencil. Answers the need of everyone who draws.

7 1/2" x 10" x .080" price \$2.00

OFFICE LAYOUT
NO. 1199

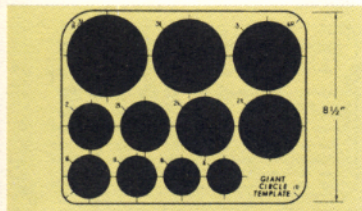

Fast depiction of most office furniture and equipment including partitions. Useful aisle guide. Scale 1/4"=1". Green tint.

5" x 9" x .030" price \$2.50

CIRCLES
NO. 1200

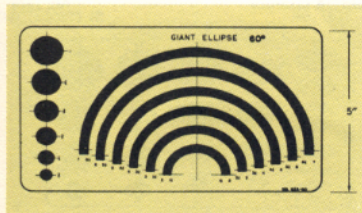

39 circles ranging in size from $\frac{1}{16}$ " to $1\frac{3}{8}$ " diameter. Pencil allowance on each opening. Green tint.

$4" \times 7\frac{1}{4}" \times .030"$ price **\$1.00**

GIANT CIRCLES
NO. 1201

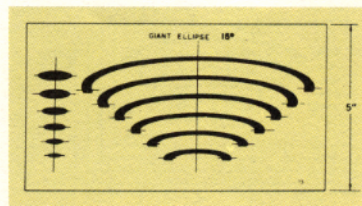

Complete circles ranging in size from $1\frac{1}{2}"$ to $3\frac{1}{2}"$ inclusive. Green tint.

$8\frac{1}{2}" \times 11" \times .030"$ price **\$1.50**

GIANT ELLIPSE
NO. 1260

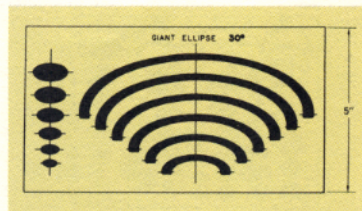

Giant Ellipse, $\frac{1}{16}$ "- $\frac{7}{8}$ " Major Axes 60° projection, moulded of green instrument quality plastic, openings beveled for easy access.

$5" \times 9" \times .060"$ price **\$1.75**

GIANT ELLIPSES
NO. 1215

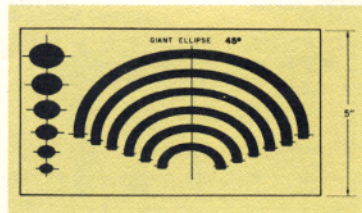

Giant Ellipse, $\frac{1}{16}$ "- $\frac{7}{8}$ " Major Axes 15° projection, moulded of green instrument quality plastic, openings beveled for easy access.

$5" \times 9" \times .060"$ price **\$1.75**

GIANT ELLIPSES
NO. 1230

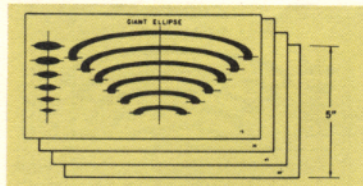

Giant Ellipse, $\frac{1}{16}$ "- $\frac{7}{8}$ " Major Axes 30° projection, moulded of green instrument quality plastic, openings beveled for easy access.

$5" \times 9" \times .060"$ price **\$1.75**

GIANT ELLIPSES
NO. 1245

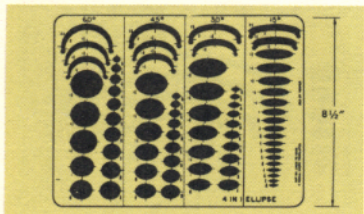

Giant Ellipse, $\frac{1}{16}$ "- $\frac{7}{8}$ " Major Axes 45° projection, moulded of green instrument quality plastic, openings beveled for easy access.

$5" \times 9" \times .060"$ price **\$1.75**

ELLIPSES SET
NO. 1261

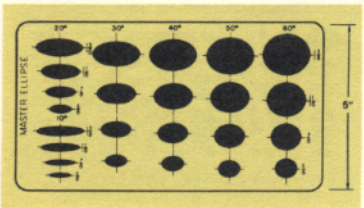

Set of 4 giant ellipse and curve templates $\frac{3}{8}$ "-7" Major Axes 15°, 30°, 45°-60°, projections. Moulded of green instrument quality plastic, openings beveled for easy access.

5" x 9" x .060" price \$6.00

4-IN-1 ELLIPSES
NO. 1262

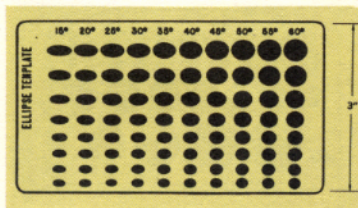

Four complete templates in one. Sectionalized into 4 degrees of 15, 30, 45, and 60. Each degree has a complete range of openings from $\frac{1}{16}$ " to $2\frac{1}{4}$ ". 21 ellipses for each degree.

11" x 8 1/2" x .030" price \$3.95

MASTER ELLIPSES
NO. 1270

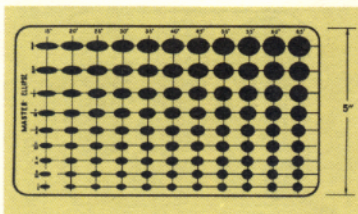

Projections of 10°, 20°, 30°, 40°, 50°, and 60°, in sizes from $\frac{1}{8}$ " to $1\frac{3}{8}$ ". 24 ellipses. Green tint.

5" x 9" x .030" price \$1.95

ELLIPSES JR.
NO. 1263

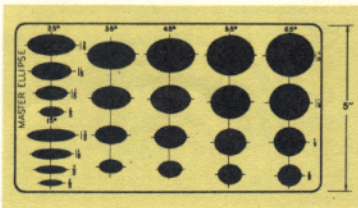

Projections of 15°, 20°, 25°, 30°, 35°, 40°, 45°, 50°, 55°, and 60°. 80 ellipses. Green tint. Packaged in transparent envelope.

3" x 5 1/2" x .020" price \$1.75

ELLIPSES
NO. 1265

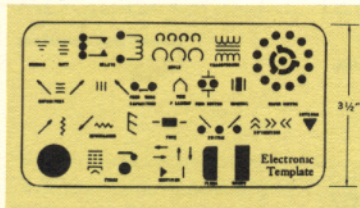

Projections of 15°, 20°, 25°, 30°, 35°, 40°, 45°, 50°, 55°, 60°, and 65°, in sizes from $\frac{1}{4}$ " to $\frac{5}{8}$ ". 99 ellipses. Green tint. Packaged in transparent envelope.

5" x 9" x .030" price \$2.60

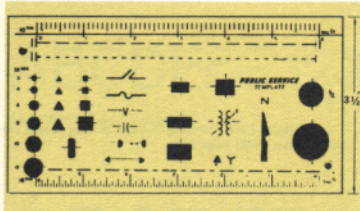

MASTER ELLIPSES
NO. 1275

Projections of 15°, 25°, 35°, 45°, 55°, and 65° in sizes from $\frac{1}{8}$ " to $1\frac{3}{8}$ ". 24 ellipses. Green tint.

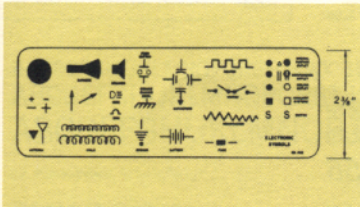

5" x 9" x .030" price \$1.95

ELECTRONIC COMPONENTS
NO. 1602

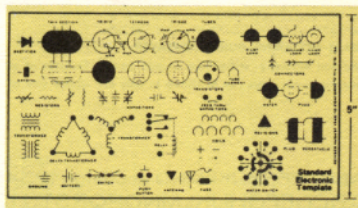

Contains the latest revisions in electronic components that can be combined in various ways to represent complete devices.
 $3\frac{1}{2}'' \times 6\frac{1}{2}'' \times .040''$ price **\$1.50**

ELECTRICITY
NO. 1660

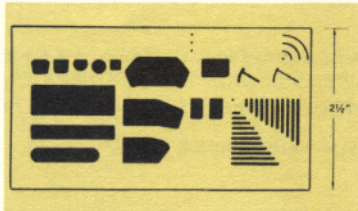

This template can be combined in various ways to represent complete electrical devices. Portrays component parts or elements such as coils, connections, contacts, instruments, transformers, etc.
 $3\frac{1}{2}'' \times 7'' \times .030''$ price **\$2.50**

ELECTRONICS JR.
NO. 1612

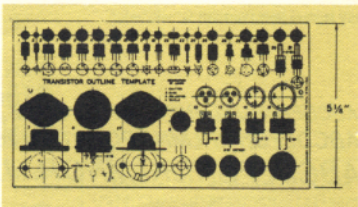

Convenient size containing the latest standard electronic symbols. Slips into pocket. Green tint.
 $2\frac{7}{8}'' \times 8\frac{3}{8}'' \times .030''$ price **\$1.90**

STANDARD ELECTRONIC COMPONENTS
NO. 1610

Contours combine for fast rendering of radio, television, and electronic components. Accurate. Latest revisions included.
 $5'' \times 9'' \times .030''$ price **\$3.75**

OFFICE LAYOUT
No. 1198

Pocket size ($\frac{1}{4}$ scale) version of template of 1199. Popular with office mgrs., architects, builders and salesmen of office furniture.
 $4\frac{1}{2}'' \times 2\frac{1}{2}'' \times .020''$ price **\$2.50**

TRANSISTOR OUTLINES
NO. 1619

A necessity for the electronics designer, draftsman or engineer. This template conforms to military standard 15A.
 $5\frac{1}{8}'' \times 9\frac{1}{2}'' \times .030''$ price **\$3.00**

MODERN EDUCATION MEETS THE NEEDS

The development of improved materials, methods and products is dynamic and the educational field is keeping pace. Nowhere in the world is there greater opportunity for service. There are millions of people at work, and many millions more in schools and colleges preparing for the day when they will shoulder the responsibilities of furnishing better things, faster, in the traditions of American free enterprise.

DYNAMIC INDUSTRY, SCIENCE and EDUCATION

In the technologically oriented world of today, the importance of science and engineering as never before, is recognized as a leading force. This fact coupled with the swift rise in population is producing a new and gigantic demand for skills and equipment.

Responsibilities of Service.

To provide for the needs of workers and learners, PICKETT & Eckel, Inc., its distributors and dealers are dedicated. In the field of product development, Pickett leadership has long been recognized. Innovations in slide rules and related products have earned the praises of educators, scientists and business leaders throughout the world.

Quality and All-American manufacture have made the name Pickett synonymous with price and value leadership. And through an enlightened policy of distribution, Pickett products are made available through protected resale outlets at reasonable cost and with the help of experienced counsel.

It is through the devotion, energies and cooperation of the producers in Pickett factories, and loyal Pickett distributors, wholesalers and dealers that this growing service is made possible.
